Interferon Society

**KAI 대한면역학회**  
KOREAN ASSOCIATION OF IMMUNOLOGISTS

## Invitation

On behalf of the Local Organizing Committee of Cytokines 2024 & KAI 2024, we invite you to be our partner and support Cytokines 2024 & KAI 2024: the 12th Annual Meeting of the International Cytokine & Interferon Society jointly with the Korean Association of Immunologists International Meeting 2024. The event is scheduled to take place from October 20 (Sun) to 23 (Wed), 2024 in Seoul, Korea.

As the premier international meeting on the cytokine biology, the annual meetings of the International Cytokine & Interferon Society typically attract 700-1,100 participants and cover basic, translational, and clinical research specific to the role of cytokines in health and diseases. Similarly, the Korean Association of Immunologists International meeting is a well-attended annual academic event, attracting researchers in both basic and clinical immunology from Korea and abroad, with over 1,500 participants each year. By converging these two influential conferences in Seoul next October, we aim to continue the strong traditions of both meetings and foster long-lasting collaboration between two societies. For further details on past meetings, please visit official webpages of Cytokines 2023 (<https://athens.cytokinesociety.org/>) and KAI 2023 (<https://www.kai2023.kr/>).

Cytokines 2024 & KAI 2024 will focus on the latest developments in cytokine biology in relation to host immune regulation during homeostasis and diseases, and cytokines and cytokine inhibitors as novel therapeutics in the clinic. We expect the participation of over 2,500 scientists from all over the world in Cytokines 2024 & KAI 2024, and we are especially proud to announce that Dr. Drew Weissman, the winner of the Nobel Prize in Physiology or Medicine in 2023, has confirmed his participation as a Keynote Speaker.

The Local Organizing Committee of Cytokines 2024 & KAI 2024 welcomes all levels of sponsorship from interested companies and institutions serving various areas of research and clinical development. For more information, please find details on the sponsorship opportunities described in this partnership program. We are also happy to listen to your particular needs and discuss other opportunities, if needed.

Please feel free to contact the meeting secretariat for more information.

With anticipation and warm regards,

**You-Me Kim, PhD**

Chair, Cytokines 2024 & KAI 2024 Local Organizing Committee

**Sang-Il Lee, MD, PhD**

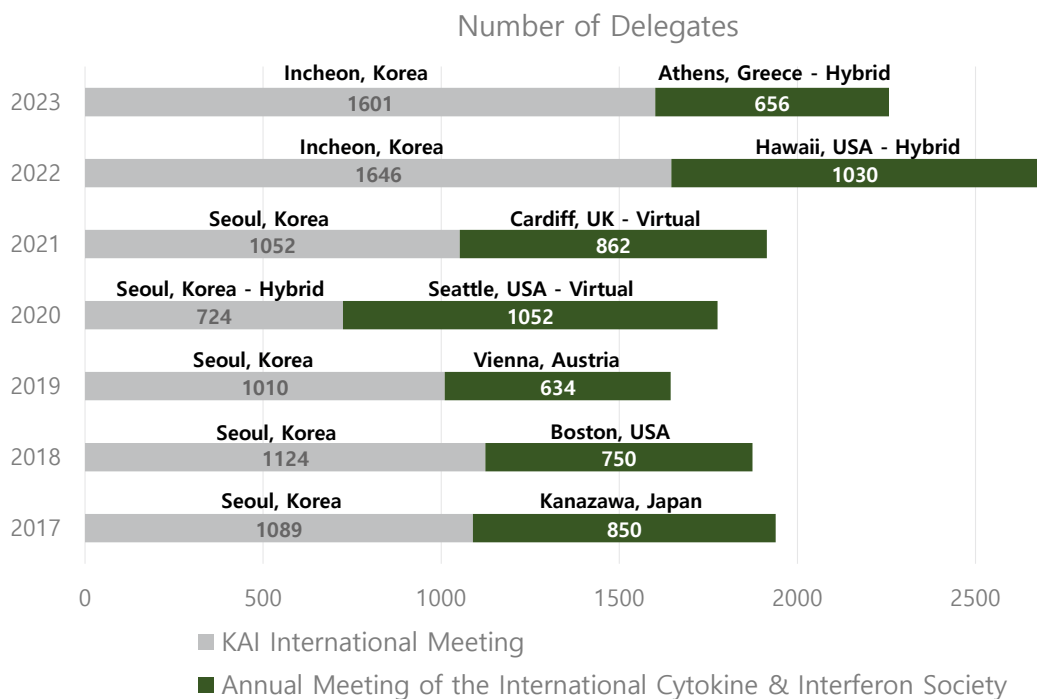

Co-Chair, Cytokines 2024 and KAI 2024 Local Organizing Committee

## Program (as of November 2023)

### 2 Keynote Lectures

- Dr. Drew Weissman, the 2023 Nobel Prize Laureate in Physiology or Medicine, has been confirmed as one of the keynote speakers.

### 3 Plenary Sessions

- mRNA vaccine and immunity
- Cytokine-blockade therapies for human diseases
- Cytokines and T cell homeostasis (Charles D. Surh memorial session)

### 14 Symposiums

- Infection and immunity
- IFNs and inflammation
- B cell biology and cytokines
- Cytokines and Th differentiation
- Immune-regulation of inflammatory diseases
- Type 2 immunity and airway diseases
- Mucosal immunity
- Engineered cytokines
- Tumor immunology and immunotherapy
- Epithelial-immune cell interaction
- Cytokines and CD8 T cell
- Host-microbiota interaction
- Trained immunity and cytokines
- Cytokines and myeloid cell regulation

### Industrial Sessions

### 3 Poster Sessions

### 3 Networking & Social Events
